TOXICOLOGICAL PROPERTIES

Routes of exposure:	<input type="checkbox"/> N/Av <input checked="" type="checkbox"/> Skin contact <input checked="" type="checkbox"/> Skin absorption <input checked="" type="checkbox"/> Eye contact <input type="checkbox"/> Inhalation <input type="checkbox"/> Ingestion
Exposure limits:	See "Ingredients" section above.

Acute effects of exposure:	Eyes - Can cause irritation or watering but injury is unlikely. Skin - No effects expected. Irritation is possible with some individuals. Inhalation - No effects expected. Ingestion - Not a likely route of exposure. Considered to have a low acute oral toxicity. If large amounts are ingested, CNS depression, gastric irritation, nausea, etc. may occur.
Chronic effects of exposure:	Methacrylate esters can cause skin sensitization (e.g. rash, itching, reddening) with some individuals. IARC has classified silica as a Group 1 carcinogen based upon chronic exposure to silica dust. This product is an encapsulated paste and, therefore, does not pose a dust hazard. The nature and intended use of this product does not pose an increased risk to cancer or biological mutations.
Synergistic materials:	None known.

FIRST AID MEASURES

Eyes:	Flush immediately with plenty of water. Call a physician if symptoms occur.
Skin:	Wash with soap and water. Seek medical attention if any effects persist.
Inhalation:	No ill effects expected. Should discomfort occur, move to fresh air.
Ingestion:	Do not induce vomiting unless directed by a Physician. Contact a physician immediately.
Other:	Referral to a physician is recommended if there is any question about the seriousness of the injury/exposure

PREVENTATIVE MEASURES

Engineering controls:	General (natural or mechanically induced fresh air movements).
Eye protection:	Safety glasses with side shields.
Skin protection:	Impermeable gloves recommended.
Respiratory protection:	None normally required.
Other:	No additional measures are normally required.
Handling procedures and equipment:	For industrial use only. Keep out of the reach of children. Use with adequate ventilation. Do not open foil pack. Do not get into the eyes. Avoid prolonged or repeated contact with the skin. Practice good hygiene; i.e., wash after using and before eating or smoking.
Storage requirements:	Store in a cool dry area and out of direct sunlight. Store between 5° and 25° C.
Spill, leak or release:	Immediately wipe away material before it hardens. Place in a container for proper disposal.
Waste disposal:	Consult with regulatory agencies or your corporate personnel for disposal methods that comply with local, provincial, and federal safety, health and environmental regulations.
Special shipping instructions:	Avoid temperature extremes.
TDG shipping name	Not regulated
