DG 150 Diamond Grinding System

Revolutionary new dust free diamond grinder with vacuum.

Features & benefits

- Unique grinding cup wheels remove material at a rate almost twice as fast as standard cup wheels
- Tool stops completely in two seconds or less after switch is turned off
- Restart interlock prevents accidental starts
- Adjustable grip provides optimum operator comfort
- Brushless motor offers life expectancy up to 30 times longer than conventional angle grinders
- Head design rotates to allow easy access to hard-to-reach areas
- High speed grinding system for surface preparation and removal of coatings from concrete and masonry

Applications

- For dust free grinding in concrete, natural stone and masonry
- Coatings (paint; adhesive remains etc.) on Concrete
