

Hilti Canada
(800) 363-4458

TE 80-ATC AVR Combihammer

Drilling range: 1/2" - 6"
Optimum drilling range: 7/8" - 2"

Features & benefits

- Best power to weight ratio in its class results in excellent productivity
- Powerful 1700 W motor delivers impressive performance for fast drilling
- Optimized mechanical clutch for maximum torque
- Low contact pressure and AVR (Active Vibration Reduction) for better working comfort
- Supported by Hilti's Lifetime Service which includes the outstanding 2-Years, No Cost coverage

Applications

- Drilling in concrete, stone and masonry with TE-YX (SDS Max) bits
- Drilling holes for rebar dowels and anchor bolts
- Through-hole drilling and coring for mechanical and electrical applications
- Chiseling/demolition of concrete and masonry
