## VC 40-U Vacuum Cleaner

Wet/dry vacuum cleaner with a 9.5 gallon tank. This vacuum meets the EPA lead related Renovations, Repair and Painting (RRP) rule for HEPA vacuums when used with the HEPA Main Filter (item # 00203879)

---

### Features & benefits

- This vacuum meets the EPA lead related Renovations, Repair and Painting (RRP) rule for HEPA vacuums when used with the HEPA Main Filter (item # 00203879)
- Very good handling thanks to compact design
- Full exploitation of tank capacity due to placement of filter and hose connection in the upper part of the machine
- Robust housing to withstand the harshest jobsite conditions
- New tank concept for easy and virtually dust-free dust removal
- Maximum total load of dust: up to 40 kg
- Hilti AirBoost filter technology for consistently high suction performance

### Applications

- Removal of concrete dust, concrete slurry and wood chips and dust
- General purpose cleaning around the jobsite
- Removal of mineral materials dust and debris
