

TS 410

STIHL Cutquik® Cut-Off Saws

When you need to cut through concrete, metal, asphalt, masonry, stone, or ductile iron, you can count on a STIHL Cutquik®. STIHL's cutoff machines excel in cutting performance and dependability. With their extended service life and long intervals between maintenance, operating costs will be kept to a minimum.

Model	Displacement (cm³)	Power (kW)	Weight (kg/lb)	Anti-vibration System	Electronic Ignition System	Decompression valve/compensator	Cutting Wheel (in)
